

## Solutions for the Way People Pay<sup>SM</sup>

**Intrix Technology, Inc.**, a leading technology enabled registered Independent Sales Organization, delivers innovative payment-processing solutions for developers, enterprises, retailers, processors and sales organizations. We combine the power of technology and scale to deliver merchant services and technology solutions that fulfill all payment acceptance needs. Intrix combines industry expertise with state-of-the-art technology to bring you results that make payment acceptance seamless to your organization.

With more than a decade of payment industry tenure, Intrix is the go to team of payment management experts, delivering payment solutions that are PABP certified, PCI-DSS validated. As a member of the PCI Council, Intrix helps drive security and data standards for the entire payments industry.

Your business requires payment and billing processing solutions that are flexible, quick to implement, cost-effective and supported by people that care and understand the critical nature of business and consumer payments.

**Merchant Services** – Intrix offers merchants, sales organizations, processors and developers the most competitive rates and technologically advanced programs in the payments industry today. Intrix provides consultative sales, aggressive revenue shares, signing bonuses, lead generation and social media programs.

Our team of experts provides dedicated support and service throughout the delivery cycle. We'll assist in lead generation, rate review and ensure account boarding and residual processes are efficient, accessible and accurate.

**Payment Gateway** – For more than a decade Intrix has delivered PC-based solutions for processing payments and storing sensitive payment data. The Intrix solution was developed with maximum focus placed on security, scalability, audit-ability, reliability and flexibility.

Deployed as both an integrated system module and as licensed SaaS software, the Intrix Payment Gateway solution is designed to meet the needs of multi-channel retailers, direct billers, college campuses, health care providers, e-commerce merchants, call centers, wholesale distributors, manufacturers', and franchises.

Ease of implementation via web services API greatly reduces certification timeframes – reducing time and cost of implementation to the end user.

**Professional Services** - Intrix Technology, Inc., is your Payment Management Partner. Our team of Professional Services executives provide system design, implementation assistance, software development, custom modifications, training and support services to provide a one-stop complete solution for integrated payment processing needs. Our payment industry consultants are subject matter experts and we utilize a proven methodology to ensure ROI project metric measurement.

We have provided technical consulting projects for software implementations, custom software modifications, payment-processor integrations and hosted application solutions. Our Professional Services team has provided industry consulting services for companies ranging from mid-tier retailers to Fortune 500 clients, with industry expertise in manufacturing, hospitality, integrated systems, and education verticals.

*Intrix Technology, Inc. is a technology-enabled sales organization focused on integrated payment solutions for Retailers, Enterprises, Sales Agents, Referral Partners and Processors. Intrix provides industry compliant, certified payment solutions for use at the point of sale and technology to support electronic invoicing and billing with click to pay features.*
