**Safe, Reliable & Certified Application Software**

The TranScend Payment Gateway is the newest, most powerful, and most flexible electronic payment solution from Intrix. It incorporates many features that are designed to provide constant and reliable payment processing services for your business. From its inception, it was designed with data security as the central pillar of its design. The TranScend Payment Gateway is a complete, Software as a Service (SaaS) solution and has both a PA-DSS and PCI Service Provider Level 1 certification.

**Transaction Processing Architecture**

Built on the TranScend Processing Architecture (TPA), the application-design was focused on five main areas important to our existing and future customer base; *Security, Reliability, Flexibility, Scalability and Simplicity.*

**Solutions for the Way People Pay**

The payment processing world is evolving quickly and in some cases, drastically. In addition to developing superior technology to insure that the TranScend Payment Gateway will meet your needs both today and tomorrow, Intrix uses the approach of incorporating all of the features found in each card processors portfolio. This assures you receive the most beneficial *Solution for the Way People Pay.*
