

Intrix Professional Services

Intrix Technologies Is Your Payment Management Partner

With Intrix, you don't have to go it alone. For the last 13 years Intrix has made it their business to be the payment management experts. Intrix is PABP certified, PCI-DSS validated, and as a member of the PCI Council, Intrix helps drive security and data standards for the entire industry.

When you leverage Intrix Technologies Professional Services suite, you get:

First-Rate Payment Management Expertise

Intrix's professional services team has more than 1700 successful projects under their belt, applying PCI standards and Payment Application Best Practices (PABP) to 6 different industries.

A Proven Methodology That Ensures ROI

Intrix's four-step methodology ensures that the project meets your business goals and fits within your existing processes. The methodology helps ensure true return on project investment, and oftentimes, it provides keen insight into areas where further business efficiencies can be realized.

Accelerated Time-to-Market

If you're like most companies, your IT resources are stretched thin. Intrix Solutions and Professional Services can cut the project definition, design, development, and deployment by up to 75%. A typical 8-month project takes just 3 months with Intrix's team of professionals.

Ongoing Support - When You Need It – From Certified Professionals

Once you're up and running, Intrix doesn't walk off the job. Security and compliance are ongoing issues, which is why Intrix offers service contracts that guarantee ongoing, immediate access to our professional support team whenever you need it.

Rapid Response to Security Changes, Updates

If you'd rather not bother with routine software maintenance and security updates, an Intrix maintenance contract will ensure you're always running with the latest version of our software.
