

# Intrix Plug-in for QuickBooks

## Integration Made Simple With a PA-DSS Application

The Intrix Plug-in for Quick Books Accounting software allows merchants to accept all forms of credit cards and ACH payments from directly within the QuickBooks main menu. The plug-in interacts with invoices and sales receipts to accept customer payments without any dual entry. It is a fully certified PA-DSS (Payment Application Data Security Standard) solution for merchants looking to ease their PCI compliance burden.

## Complete the Sale in One Step

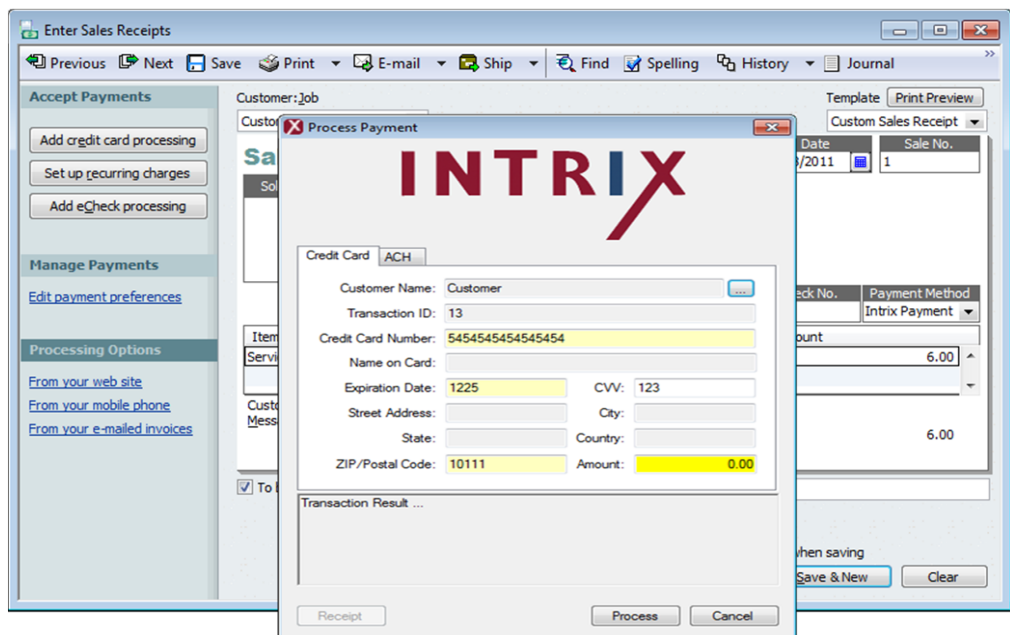

- Transactions are processed and recorded directly within QuickBooks.
- No need to re-enter transactions – saving you time and allowing you to focus on what matters most for your business.

## Accept Your Customer's Preferred Payment Type

- Accept major credit cards such as Visa®, MasterCard®, Discover® and Amex®
- Process Direct Debit (ACH)

## Special Features

- Prints Receipts
- Automatically updates QuickBooks and marks invoices as "PAID"
- Developed to be easily branded
