

## Equipment / Hardware

Intrix offers a complete line of credit card processing equipment including credit card machines, wireless credit card terminals, printers and PIN pads.

### Credit Card Machines

Intrix supports a wide variety of stand-alone and wireless terminals from Verifone, Hypercom, Ingenico and others to ensure the best match for your processing needs. For more information, contact your Intrix merchant sales representative.

### Wireless Terminals

The Wireless Terminal is the newest technology that allows merchants to process their customer's payments wirelessly anywhere in the United States. Intrix carries wireless credit card terminals from many major manufacturers, including Way Systems, Nurit and VeriFone.

### Check Printers

Choose among top-of-the-line check readers like the VeriFone 600 and the Verifone CR 1000i. We guarantee that you will get the lowest price on all our check readers and receive the highest level of service.

### Check Readers

Choose among top-of-the-line check readers like the VeriFone 600 and Mag Tek Mini Micr. You will get the lowest price on all our check readers and receive the highest level of service.

### PIN Pads

The Verifone'1000 SE is a versatile solution combining two peripheral solutions, contactless payments and PIN-based transactions, into one handheld product - thus putting the choice back in the hands of the consumer.
