➤ About Intrix

Intrix Technology, Inc. has been an innovative provider of payment processing software for over 13 years with an industry reputation for providing **high quality, market-driven solutions and consultation services** to major market leaders. We began when company executives realized other payment processing vendors were only focused on selling their payment software solutions; ignoring the client's deeper need for proper guidance on how to deploy the software in a manner that would ensure security and industry compliance.

Since 1997 Intrix has made it their business to be the business partner merchants so desperately need. As a member of the PCI Council, we help drive security and data standards for the entire industry, and in turn use our in-depth knowledge to help customers.

At the heart of Intrix are it's people.

- Intrix executives have over 100 years combined experience providing enterprise payment management systems
- The Intrix professional services team has experience with over 1700 projects spanning 6 different industries
- Our highly-skilled support staff are honored year after year by both customers and industry partners

Clients rely on Intrix to process more than \$1 billion in transactions annually. Discover what sets Intrix apart from the pack.
