

Invoice Creator

Create & Automatically Send Invoices And Take Payments Online

Intrix Invoice Creator enables merchants to create and manage invoices, and to have those invoices automatically sent to customers. Merchants can add clients, items, invoicing schedules and terms to bill their customers via e-mail. Their customers can respond to the electronic invoice by pressing the "Pay Now" button and paying online by credit card or ACH.

The Invoice Creator supports both one time and recurring invoices along with the ability to reconcile invoices against payments received.

The screenshot shows the 'Invoice' creation interface. At the top, there's a 'Create new Invoice' button and an 'Invoice Status' dropdown set to 'Draft'. The client information is for 'Joes Pool Service' with contact 'Mary Campbell' at '7234 Diamond Way, Sacramento, California 95661, United States'. A 'Select client' button is next to it. Below, another client 'Sally Mortensen' is listed with '123 Main St, Walnut Creek, California 93456, United States' and email 'smortenson@noemail.com'. Invoice details include 'Invoice Number: 1041', 'Invoice Date: 8/20/2015', and 'Purchase Order:'. Terms are 'Net 30 - Due: Sep-19-2015' and 'Recurring: Monthly On 1st Until Cancelled'. A table lists one item: 'Monthly Pool Service' with SKU 'PS0001', quantity '1', unit price '\$65.00', and amount '\$65.00'. Summary fields show 'Subtotal: \$65.00', 'Discount percent: 0.00', 'Tax: \$0.00', 'Shipping: 0.00', 'Late Fee: 0.00', and 'Total: \$65.00'. There are 'Add Item' and 'Delete Item' buttons, a 'Notes' field, and 'Save & Preview', 'Save Only', and 'Save & Send' buttons at the bottom.

Is Invoice Creator Right for You?
